GHCUCUMBERS/V4#1

(A) Confidential - Confidentiel
* Revised - Revisé

NOTE TO USERS

In 1986, the target population was redefined to include only greenhouses of 7,500 square feet or more. After extensive consultation with greenhouse industry representatives, this minimum area was set. The objective of this change was to eliminate hobby farmers and "non-commercial" greenhouses.

(SOURCE: Statistics Canada)

AVIS AUX UTILISATEURS

En 1986, la population cible a été redéfinée; maintenant elle comprend seulement les serres avec la superficie d'au moins 7,500 pieds carrés. Cette superficie minimum a été confirmée avec plusieurs représentants de l'industrie de serres. L'objectif de ce changement était d'enlever les opérations non-commerciales de la population.

* Revised - Revisé

NOTE TO USERS

In 1986, the target population was redefined to include only greenhouses of 7,500 square feet or more. After extensive consultation with greenhouse industry representatives, this minimum area was set. The objective of this change was to eliminate hobby farmers and "non-comercial" greenhouses.

SOURCE: Statistics Canada

AVIS AUX UTILISATEURS

En 1986, la population cible a été redéfinie; maintenant elle comprend seulement les serres avec la superficie d'au moins 7,500 pieds carrés. Cette superficie minimum a été confirmée avec plusieurs représentants de l'industrie de serres. L'objectif de ce changement était d'enlever les opérations non-commerciales de la population.
